

Prof. Dr. Wolfgang G. Büchner becomes a partner at Memminger LLP

Ladies and Gentlemen,

We are very pleased to announce today that we have won Prof. Dr. Wolfgang G. Büchner as a new partner at Memminger LLP. From now on, Wolfgang Büchner will lead and expand the "Digital Business" practice group in Frankfurt / Main.

The inclusion of a renowned IT and media lawyer is the expression of our strategic conviction that the legal requirements of a digitized world will become enormously important in the next few years (see, for example, the German General Data Protection Regulation (GDPR), the self-propelled car and artificial intelligence). A close interlinking between the practice areas of "digital business" and "corporate" at the same level enables us to further optimize the quality of our consulting services, especially in VC and PE transactions.

Wolfgang Büchner is a specialist information technology lawyer, however even before the title was officially introduced, he was considered as such. He has specialized in legal issues surrounding digital media and information and communications technology since the middle of the 1980s. In addition to advising on contractual negotiations and regulatory requirements (of broadcast media, tele-media services and telecommunications) for operational business, his activities also include supporting transactions in the technology and media sector. Wolfgang Büchner was active for many years in senior management positions of various professional associations; most recently until 2012 as the President of the International Federation of Computer Law Associations (IFCLA), the governing body of national IT law organizations. For many years prior to his accession to the Memminger LLP Partnership, Wolfgang Büchner was an Equity Partner in global law firms and either led the relevant practice group or assisted in the formation and expansion thereof.

Memminger LLP is a leading German corporate boutique with an international reach. The firm was founded by partners and attorneys of internationally renowned law firms in order to combine high legal quality and long-term transactional experience with economic competence in the provision of advisory services, thus achieving the goals of the clients efficiently.

Wolfgang Büchner and Peter Memminger, founder of Memminger LLP, have worked together closely on a variety of projects in the past and look forward to working together again.
