### Ranking

Inclusion in Best Lawyers is based entirely on peer-review. The methodology is designed to capture, as accurately as possible, the consensus opinion of leading lawyers about the professional abilities of their colleagues within the same geographical region and legal practice area. Best Lawyers employs a sophisticated, conscientious, rational, and transparent survey process designed to elicit meaningful and substantive evaluations of the quality of legal services. Our belief has always been that the quality of a peer-review survey is directly related to the quality of its voting pool.
